HEALTHIER GUMS AND BRIGHTER TEETH

Brushing alone is not enough. Despite the fact that virtually everyone brushes their teeth, 7 out of 10 Canadians will develop gum disease at some time in their lives.

Clinical research confirms that the Waterpik® Water Flosser is significantly more effective than string floss, interdental brushes, and air floss for removing plaque and improving gum health.* That's why it is the #1 choice among dental professionals.

If you have implants, crowns, bridges, braces, or other dental work, the Waterpik® Water Flosser is essential.
